

## Our Objectives

To recruit, educate, train, and motivate individuals to run for public office who are irrevocably committed to uphold and fight for constitutional principles and the preservation of the Republic.

To increase Republican voter registration and voter participation.

To promote conservatism in the tradition of the Founding Fathers.

To bring back to the Republican Party those who have been disaffected from the perception that the party has moved away from its core principles.

To watchdog elected officials and insure their adherence to conservative Republican principles.

To identify and oppose those individuals, groups, and agendas that would, knowingly or otherwise bring about the loss of our freedoms and the destruction of our Republic through the violation of the Constitution and the erosion of the traditional family or public morals.

To inform the public regarding correct principles relative to issues and the qualifications of candidates for public office.

To maintain the integrity of the Republican Party platform based on correct moral and constitutional principles. Then to use the platform as a criterion of accountability for elected officials.

## Our Beliefs

That all political power and influence should flow from the grass roots upward.

That all human rights are granted by God, not government and that government exists primarily to protect the God-given rights of its citizens.

That the Constitution was written by wise men under the inspiration of God and that the original intent of the Founders is as valid and binding today as it was in their day.

That the Constitution was written to govern a moral and religious people and it is being destroyed by those who are neither.

That the unborn child has a fundamental individual right to life which cannot be infringed. That sacred right extends to all persons regardless of age or infirmity and also would not allow for euthanasia, assisted suicide, or public funding for any of these practices.

That the traditional family is the foundation and cornerstone of our society and we will oppose any attempt to undermine or redefine the family unit.

That the founders never intended to separate God from government but did intend to prevent government from establishing a single state religion or inhibiting the citizen's right to the free exercise of religion in any setting, public or private.

That free market capitalism is the only economic system that creates the opportunities and incentives that will allow maximum productivity and prosperity for its citizens. It is the necessary partner of political freedom.

In the necessity of national sovereignty, we also consider it crucial to return to appropriate state sovereignty under the 10th amendment.

## What is your role?

Our first and main goal is to create the largest and most active group of Conservative Republicans in this state. People who are willing to help select and work for principled Republican candidates who will not yield to politically correct tendencies that lead to compromise and defeat.

We are organized in local units around the state to work for conservative candidates at the local level as well as the state level. With your help we can build an organization that will put the thoughts and concerns of the individual at the top of the political agenda.

Each local unit of ALRA sends delegates to the annual state convention to determine rules, endorsements of candidates, and election of ALRA officers.

ALRA sends delegates to the biennial NFRA National Convention. Members control the organization at all levels. This is truly a grassroots organization. With your help we can make the Alabama Republican Assembly the premier conservative organization in the state. Join today and then pass along this information to a friend who shares your concern.

*"This idea that government was beholden to the people, that it had no other source of power, is still the newest, most unique idea in all the long history of man's relation to man. This is the issue of this election: Whether we believe in our capacity for self-government or whether we abandon the American Revolution and*

*confess that a little intellectual elite in a far-distant capitol can plan our lives for us better than we can plan them for ourselves."*

*"It's time we asked ourselves if we still know the freedoms intended for us by the Founding Fathers. James Madison said, 'We base all our experiments on the capacity of mankind for self-government.'*

## Who and What is the Alabama Republican Assembly?

The Alabama Republican Assembly, along with all other state chapters of the National Federation of Republican Assemblies (NFRA), works to unite conservatives, both economic and social, whose interests range from tax cuts and reform to national defense, from pro-life to education concerns, from Second Amendment to national sovereignty, and for the advancement of traditional Republican values.

NFRA was founded in 1996 by a group of Republican leaders from California and Arizona, concerned with the push by liberals to divorce the Republican Party from the successes of the Reagan revolution. ALRA was chartered in 1998 to bring this organization to Alabama. Our goal is to see that the Party is not turned away from the principles championed by Ronald Reagan.

We, as an organization, will actively support Republican candidates that ALRA members endorse as the best in a particular contest. In this way we will hold the Republican Party to the conservative principles espoused by President Reagan and this organization.
